<b>Total</b>	<b>514</b>	<b>394</b>	<b>5357</b>	<b>2867</b>	<b>2446</b>	<b>11578</b>

Data represents total number of female persons in each age cohort and the language spoken at home.

Data is sorted highest to lowest based on language spoken at home by Masters 35-50 year old age cohort.

Age cohorts have been determined based on age groupings commonly used by sports clubs in Moreland.
